To whom it may concern,

Taylor Solutions recently completed a project involving prep and install of new pool liners at Barren River State Park in Lucas, KY. Aquaholics was contracted to provide all materials and complete full installation of new pool liners for the main pool, wading pool and surge tank. Taylor Solutions was very appreciative and pleased with the quality of work and communication with the Aquaholics team.

We would highly recommend the Aquaholics team and look forward to working them again in the future.

Sincerely,

A handwritten signature in green ink that reads "Ryan Taylor".

Ryan Taylor
